

Garment Carousel

The Vidir Garment Carousel is a motorized vertical carousel designed for high density storage and retrieval of garments. The semi/fully automated storage system maximizes overhead space to save you up to 82% of your floor space with every garment accessible at the touch of a button. The system can integrate with existing ERP and WMS systems or function as its own warehouse location. Additional overhead bridge, multi-tower, and built to fit specifications guarantee maximum utilization of available space.
